

APEC and CEOs are coming to town. **Labor is Rallying demanding Workers be heard.**

As CEO Billionaires gather for their Pacific Rim feast at Moscone Center, the SFLC and Community groups will gather at Union Square on Wednesday, November 15, 2023, at 4pm to demand that CEOs stop union busting in our communities.

Amazon, REI, Starbucks workers voted for their unions while CEO's fight against worker pay increases, health benefits and pensions. We demand Corporations stop fighting unions while their CEO's take-home billions. We demand that working people be centered in negotiations and that trade deals include strong and enforceable labor standards to ensure corporations treat workers with respect, dignity, and the union of their choice. We say no to all trade deals that put corporate interests ahead of unions and working people.

Digital Trade and AI threaten workers job security more that ever. We need to make sure that all trade deals secure worker information and jobs and not just the interests of Big Tech. We **strongly oppose** Big Tech's awful "digital trade" agenda that threatens union-wage jobs, civil rights, workplace safety, AI accountability and personal privacy.

Join us on November 15, 2023, at 4pm

San Francisco Union Square

For a rally featuring workers, Lorena Gonzalez of the California Labor Federation, Will Wiltschko of California Trade Justice Coalition
